

# Supervised Agricultural Experience 1<sup>st</sup> Nine Weeks Guidelines & Rubric

Student Username: \_\_\_\_\_  
Student Password: \_\_\_\_\_  
Chapter Number: \_\_\_\_\_

Dear Student & Parent/Guardian:

The SAE project is an opportunity for your child to gain additional knowledge and hands-on skills outside of regular class time. Each SAE project is uniquely designed by each student. All hours related to the project are completed outside of regular class time. Each student will keep records on the hours and provide pictures to document the work completed. These records are kept in the Agricultural Experience Tracker program. Your child already has their username and can access the Agriculture Experience Tracker from home. We encourage you to browse the website at [www.theaet.com](http://www.theaet.com) and also the course website at [havelockag.weebly.com](http://havelockag.weebly.com) to become more familiar with the SAE project and the records your child will keep.

This SAE project counts for **10%** of your child's grade in their agriculture course.

The components of the SAE project that are due on November 1<sup>st</sup> are listed in the chart on the right.

## **Basic SAE Selection**

Name of Student: \_\_\_\_\_

Name of Agriculture Class: \_\_\_\_\_ Semester/Year: \_\_\_\_\_

Type of SAE Selected: (circle one)

Improvement      Placement      Exploratory      Entrepreneurship      Experimental
